CHICKERING & SONS,

PIANOFORTES.

THE subscribers take pleasure in informing the public that they have been appointed **Sole Agents for these Celebrated Instruments for the State of Rhode Island,** and they would invite special notice to their intention of offering for sale at their NEW WAREROOMS a larger and more complete stock of Grands, Uprights and Squares, made by this Celebrated Firm, than has previously been exhibited in this city.

The subscribers have been conscious of the extraordinary merits and sterling qualities of the CHICKERING PIANOS for many years. This has resulted from a large experience in the sale of Pianos, many of which were from the best makers in the country and a careful observation of the various points of excellence attained by each particular maker, together with the opportunities afforded from their close connection with the Musical World, of hearing the most unanimous opinions of the greatest artists in favor of the Chickering Piano, and finally, upon witnessing the last and crowning triumph at the recent Paris Exposition over all the most celebrated makers in the world. The peculiar points of superiority to be found in the **Chickering Pianos** have been so frequently and minutely retailed by the Press that we do not consider it necessary in the Card to comment farther upon them. We shall keep in connection with the above, a choice assortment of PIANOS from good and reliable makers at a lower price.

NEW ADVERTISEMENTS.

1000 LOTS

IN THE

CITY OF RALEIGH,

WEST VIRGINIA,

TO BE GIVEN AWAY.

This beautiful city is in Raleigh Co., W. Va., near the Chesapeake and Ohio R. R. It is growing rapidly, and its natural advantages will soon make it one of the largest cities in the State. Lots in Chicago and many other Western cities, which a few years ago were nearly worthless, are now worth many thousand dollars. We expect to see the same rise in the value of property in Raleigh.

Our reasons for GIVING AWAY LOTS, is that we own a great deal of property in the city and its vicinity, and we desire to draw to our lands a part of the stream of population from the Eastern and Middle States, which is pouring into this part of West Virginia, along the line of the Chesapeake and Ohio R. R. Of the thousand persons who receive lots from us, some will doubtless settle in the city, while all will be interested to use their influence in our favor and aid us in selling lands near the city. By thus giving away part of our property we expect to greatly increase the value of the remainder.

The fees for the acknowledgment of a deed amount to $1 50, and the stamp required is 50c. Each applicant must, therefore, inclose Two Dollars for these necessary expenses, and he will receive by return mail a **Warranted** Deed for one full lot; or, the Deed will be sent by express, to be paid for on delivery. In this case the person receiving it must pay the expressage.

An early application will be necessary, as the thousand lots will soon be exhausted. Write your name and address plainly.

Address **JAS. R. STRONG,**
Room 20, 23 William St., New York.

NEW ADVERTISEMENTS.

To THE WORKING CLASS.—I am now prepared to furnish all classes with constant employment at their homes, the whole of the time or for the spare moments. Business new, light and profitable. Fifty cents to $5 per evening, is easily earned by persons of either sex, and the boys and girls earn nearly as much as men. Great inducements are offered those who will devote their whole time to the business; and, that every person who sees this notice, may send me their address and test the business for themselves. I make the following unparalleled offer: To all who are not well satisfied with the business, I will send $1 to pay for the trouble of writing me.—Full particulars, directions, &c., sent free. Sample sent by mail for 10 cts. Address E. C. ALLEN, Augusta, Me.

What Trotty Thought of the Baby.

By MISS E. STUART PHELPS.

'I DON'T think I like the looks of it,' said Trotty, very distinctly.

He meant the baby. It was aunt Matthew's baby. Aunt Matthews, and Cousin Ginevra, and the baby's nurse, and the baby's trunks, and the baby's carriage, and the baby's crib, and the baby, were making a visit at Trotty's house.

They had just gone into the spare chamber to take off their things, and Trotty had hopped up stairs on one foot after them, with an interested air. It struck him that people were making a great fuss over that pink bundle in that woman's lap,—kissing it, and squeezing it, and feeling of its fingers, and chucking it under the chin; saying how it had grown! and how much it looked like papa! and what a little dear it was! and see it laughing at you! He wondered whether, if he were a pink bundle in a freckled woman's lap, they would pay so much attention to him.

'I'm four years old, and I,m going to be five bime by,' he said, feeling that he had been neglected long enough. But nobody listened.

'I'm four years old. I've got a tip-cart, and some rubber-boots,' he continued, severely. 'I have fico griddle-cakes for breakfast, and I eat my supper down stairs.'

But nobody heard that either. However painful it may be to inflict a gentle reproof upon one's inferiors, it is undoubtedly sometimes a necessity. Trotty, with quiet dignity, crept up behind Aunt Matthews, and jerked her by the waterfall.

'O!' said everybody talking at once 'do let Trotty see the baby. I don't believe he ever saw a baby near enough to touch it in his life.'

So they made room for Trotty beside the freckled woman, and he examined the pink bundle with attention. It was a very pink bundle. Its flannel cloak was pink; its crocheted sack was pink; its little knit shoes were pink; its hands were pink; and its face was very pink, it had two great black eyes, a funny little flat nose, no hair to speak of, and no teeth, whether you spoke of them or not. It stared at Trotty for a minute doubtfully; then scowled a little, scowled a little more, scowled very much, wrinkled, writhed, twisted, grew red, grew purple, opened its mouth wide, and screamed at him, then doubled its fists close, and punched him in the face.

'You frighten her the blessed little dear!' said Aunt Matthews.

'I don't wonder,' said Lill; 'you've been to the sirup-pitcher, and the quince-jar, and the sugar bowl, and the apple-barrel, since you washed your face last, to say nothing of the red crayon on your neck and the black one on your nose. You've been at my paint-box, too, I know from the gamboge streak on your forehead, and the pea-green on that front curl.'

'No,' repeated Trotty, with decision, as he was marched off to the wash-bowl, 'I don't like the looks of it, and if God can't make a better-looking baby than that, I don't want any.'—*Our Young Folks for May.*

NEWPORT DAILY NEWS.

THURSDAY, April 29, 1869.

A horrible death from hydrophobia oc-curred at Chicago Monday. The victim was a young man named Wm. Goodwillie of that city. A few weeks ago a friend brought into the shop a little dog picked up in the street. Goodwillie in fondling it was bitten in the thumb. The first symptoms of hydrophobia appeared on Sunday a. m. when he arose and attempted to wash himself.— The sight of water threw him into parox-ysms. Medical aid was summoned, but the malady increased during the day, and at evening he foamed at the mouth and snapped at the members of his family. He was seized with convulsions every few min-utes, but he realized during his lucid inter-vals his situation, and begged his friends to keep away for safety. Yesterday morning it was determined to try the effect of a sul-phur vapor bath. The patient was hand-cuffed in a bath for half an hour at a tem-perature of 180 degrees. When taken out and laid on a lounge he seemed better, but fifteen minutes after he expired in horrible spasms.

An emigrant train on the Hudson River railroad which left New York last Thurs-day did not reach Albany until Friday night, having been detained by the freshet. It has since been ascertained that the pas-sengers suffered terribly for want of food. A number of emigrants were accompanied by small children. Two of the latter were taken sick from neglect and exposure and died soon after reaching Albany. One was a boy about two years of age, son of Stephen Cunningham who resides at Clyde. Mr. Cunningham came to this country about a year ago. He sent out for his wife and two children, and all three reached New York from Ireland on Wednesday last. The child which died was in excellent health when it left New York for this city. The other child was an infant of about six months old, daughter of Luke Morremaker, a German who had just arrived from Hol-land and was en route for St. Louis.

A child about five years of age, daughter of James Parsons, who lives in the vicinity of Little Sodus, N. Y., last week fell into a well and was rescued from drowning by a spaniel belonging to Mr. Parsons, which had always shown great affection for the child. The well is about twenty feet deep, and at the time of the accident contained about fifteen feet of water. The curb was low, and the child leaned over and fell in A man who was passing along the road, some distance from the well, heard pecu-liar cries from the dog, who was running frantically around the well. The man got upon the fence and saw the animal jump in-to the well. He then ran to the spot and saw the child upheld by the dog. Both were immediately rescued, although the little girl was at first supposed to be dead. She was resuscitated with a good deal of difficulty, and is now all right.

[illegible] House have been established. The Presi-dent will be engaged from nine to ten o'clock each day in opening his mail and giving directions for its disposition. From ten to twelve o'clock he will receive callers without regard to race, sex, color, or station. From twelve to three o'clock he will be en-gaged with executive business and members of the Cabinet, and at three o'clock the doors will be peremptorily closed to every-body. Appointments and other matters of public interest will be bulletined for the benefit of whom it may concern, in one of the ante-rooms at half-past two o'clock in the afternoon. The President will not see persons on business in the evening except by previous arrangement, and only on pressing matters that cannot well be post poned will see any one at all on business on Sundays.

General Sherman arrived at Fortress Monroe Tuesday morning from Washing-ton, for the purpose of presenting the offi-cers who have recently graduated with their diplomas. A salute of 17 guns was fired at 9 o'clock. A review of the troops took place at 10 o'clock. The Diplomas were presented at 5 o'clock. General Sher-man will visit the Navy-yard to-morrow and return to Washington via Richmond.

There is a young, unmarried woman, a shoe manufacturer in Lyon, who makes fine serge button-boots. Her goods are made exclusively to fill orders from some of the largest retailers in Boston, and she makes frequent visits to that city in the transaction of her business. She formerly lived in Reading (now Wakefield), where her father manufactured shoes, and where she acquired a knowledge of the business. She prefers this independent way of getting a living to that of working for others.

James Stevens, a respectable farmer, be-longing in Litchfield, Me, accidentally drove off the bluff Landing bridge that connects the towns of Litchfield, and west Gardner Thursday evening, and was drowned to-gether with his horse. The bridge was overflowed with water and had no railing. The body of Mr. Stevens was recovered about three hours afterwards. He was about sixty years of age.

A Sioux City special says the reliable ac-counts from the steamer Urilda show that no lives were lost, and that no person was in-jured. The boat was loaded with discharged soldiers coming down, and when within eighty miles of Sioux City she struck a snag, and sunk in twelve feet of water. The troops and crew all escaped to the shore.

The Louisville Mail Line Company to-day brought a suit against fifteen insurance Companies of Cincinnati to recover insur-ance to the amount of $110,000 on the steamers *America* and *United States*, which were lost December last by a collision. Five suits have been brought before the Supreme Court.

Thomas A. Loran, a very humble individ-ual in New York, has fallen heir to $70,-000 worth of property in Ireland.

Baptist Anniversaries.

The forty-fourth annual meeting of this Convention assembled in the Friendship Street Baptist Church, Tuesday morning, the President, Rev. J. Brayton, of Centre ville, in the chair.

The President then briefly addressed the Convention upon the special demand for missionary labor in the State, and upon the work accomplished at different points du-ring the past year.

Rev. C. A. Snow, of Providence, was appointed a committee on credentials, up-on nomination by the President.

The Convention then proceeded to the election of a President for the ensuing year. Deacon James H. Read, of Providence, and Rev. O. P. Fuller, of Centreville, were appointed tellers. Upon a second ballot, the Convention elected Rev. A. H. Grang-er, of the Fourth Church, Providence.

The report of the Treasurer, Mr. R. B. Chapman, was then read. The following is a summary: Amount on hand April 29, 1868, $477 33; receipts during the year, from churches, $3,103 62; dividends and interest, $425; borrowed $2,000; total receipts, $5,006 90. Disbursements—Paid to churches, $3,361 97; interest on bor-rowed money, $140 12; investment for the "Smith Fund," $428 25; printing, and paid to the Secretary, $182 50; balance on hand at this date, $974 06. The report al-so contained a statement of the funds in the possession of the Convention, and an ac-count in detail of contributions for general benevolent operations, which amount in the aggregate, for the year, to $23,052 53.

Rev. Dr. Caldwell, Chairman of the Committee on Nominations, in behalf of that Committee reported the following nominations, which were accepted, and the gentlemen nominated were elected, viz:

Secretary—Rev. H. C. Graves.
Treasurer—Mr. Rhodes B. Chapman.
Board of Managers—Messrs. S. L. Cald-well, Johnathan Brayton, James Boyce, James H. Read, George B. Peck, John G. Richardson, A. Caswell, John B. Hartwell, C. H. Spalding, A. F. Spalding, Charles A. Snow, F. Denison, S. S. Parker, Still-man Welch, T. W. Sheppard, O. P. Fuller, Isaac Chesebrough, Elisha W. Applet n, C. E. Barrows, J. Aldrich, F. Smith, E. S. Wheeler, Amasa Howard, J. H. Tilton, S. Richards, S. L. Holman, W. F. Bain-bridge, George Britten, H. W. Jones, G. Robbins.
Auditors—James H. Read and John B. Hartwell.

AFTERNOON SESSION.

The convention met at 2 1-2 o'clock, pursuant to adjournment, the newly elected President, Rev. A. H. Granger, D. D., oc-cupying the chair.

The Secretary of the convention and of the Board of Managers, Rev. H.C. Graves, of the Brown street church, then presented his annual report.

A general conference meeting was then had, previous to listening to the address of Rev. Mr. Bixby, as announced in the order of exercises, the time for that address be-ing extended to four o'clock. Brief, but spirited and effective addresses were made by several of the gentlemen present as del-[illegible] opics relating to the objects and needs of the body. Rev. S. F. Hancock, of New-port, first spoke, and was followed by Mr. E. N. Harris, of the Rhode Island Temper-ance Union, Rev. William Fitz, of Harris-ville, Deacon J. H. Read and Rev. H. C. Graves, of Providence, and Rev. F. Smith.

Rev. M. H. Bixby, then addressed the Convention in an eloquent and interesting manner, for about half an hour, upon the subject of missionary labor at home and abroad.

Rev. W. M. Lisle, recently returned from missionary labors in Bankok and Si-am, then made a few interesting remarks.

Rev. Messrs. B. P. Fuller and C. E. Barrows, were appointed a Committee on Place and Preacher for the next annual meeting.

Reports from the different associations in the State were then called for.

Rev. Dr. Caldwell, from the Committee on Obituaries of Deceased Members, pre-sented a report in behalf of that committee, speaking in terms of tender and grateful remembrance of those of the members of the Convention who had, during the year just closed, departed this life. Their names were as follows: Rev. J. H. Baker, Rev. J. Newton Bates, Deacon N. Mason, Mrs. M. M. Benedict, Lemuel H. Elliott and Mrs. Crawford Titus. It was accepted and ordered to be printed with the other reports.

Rev. Mr. Smith, at his request, was ex-cused from serving on the Board of Man agers, and upon nomination by Dea. Read, Alexander Ballou, of Woonsocket, was elected to fill the vacancy.

Rev. O. P. Fuller, with Rev. C. A. Snow as alternate, was reported for preach-er at the next meeting. The report was accepted.

Rev. C. A. Snow, Committee on Creden-tials, presented his report, which was ac-cepted; 105 delegates had reported, whose names were given in the report.

EVENING SESSION.

A Committee of Arrangements was ap-pointed, consisting of the pastor of the church with which the meeting is to be held, and Rev. J. G. Richardson, and Rev. Mr. Tilton.

On motion, of Rev. C. H. Spalding, a vote of thanks was extended to the Friend-ship Street Church and congregation for their hospitality extended to the Conven tion.

Devotional exercises were conducted by Rev. Mr. Bainbridge and Rev Mr. Lisle.

The annual sermon was preached by Rev. A. F. Spalding, from Jer. xxiii., 29. "Is not my word like as a fire saith the Lord, and like as a hammer that breaketh the rock in pieces?" These questions, said the preacher, are virtually assertions of the Almighty and more forcible as they come from the lips of the plaintive prophet, true to his God in the midst of almost unpar-alleled society depravity and universal de-cay. "The manner in which God's word exerts its energy on mankind," is the les-son of these questions. That word is God speaking by inspiration—by angels, proph-ets, apostles, revealing the administration to which his creatures are amenable, and the way by which alone harmony may be re-stored between God and man. It is the direct necessary instrument of the Spirit of God in man's conversion.

April Showers.—We have been enjoy-ing a fine April shower to-day, just what is needed.

Dogs.—All persons interested in dogs will do well to observe the notice published in another column.

Election.—At an adjourned meeting of the Newport Light Infantry, held at their armory last evening, Frank H. Wilks was unanimously elected Colonel.

Personal.—We hear that Hon. Schuyler Colfax is expected in this city some time in June next. He is well known here and will always be welcomed.

The Ocean House.—Workmen are engaged in painting the Ocean House, great-ly improving its appearance. Other changes are also taking place in the premises.

The New Bell.—The new bell for the Congregational church was put in the stee-ple yesterday and rung for the first time. We think it fully equal if not superior in tone to the one that was broken.

The Newport Journal.—Advertisements for the Newport Journal of this week should be handed in at an early hour to-morrow. The Journal circulates largely on the Island, and is an excellent medium of communication with farmers and others.

Newport Artillery.—The following of-ficers were elected for the ensuing year:

Colonel—John H. Powel.
Lieut. Colonel—Augustus P. Sherman.
Major—Thomas S. Burdick.
Captain—John S. Coggeshall.
1st Lieut. & Qr. Mr.—Henry T. Easton.
Adjutant—William A. Stedman.
Paymaster—William G. Stevens.
Commissary—Arnold L. Burdick.
Surgeon—Nathaniel G. Stanton, M. D.
Assistant Surgeon—James H. Taylor.
Chaplain—Rev. Thatcher Thayer.
Orderly Sergeants—1st. Thomas S. Na-son; 2d. Jere Horton; 3d. John P. Can-field; 4th. E. V. Bosworth; 5th. Samuel Chambers.

The following were then appointed by the Colonel on the non-commissioned staff:

Color Sergeant—Edwin Slocum.
Quartermaster Sergeant—Geo. H. Jones.
Corporals—1st John Stacy; 2d. E. H. Tilley; 3d. J. Truman Burdick; 4th. H. H. Tilley.

[*Communication.*]

Mr. Editor:—Will you allow me to suggest through your paper, that the crowd of *waiters*, who stand on Young's corner, evenings, evidently waiting, Micawber-like for something to turn up, be requested to retire to some less conspicuous spot, where they will not be so much in the way of pedestrians. It is sometimes necessary for ladies to pass through Thames street, after dusk, and the passage is anything but an agreeable one, and it requires a large amount of courage to face this crowd, who seem to feel it their duty to share their tobacco-smoke and conversation with passers by.— Possibly our good city council, might be induced to erect some comfortable seats [illegible] stopping place between six o'clock, and the hour for retiring, may rest their weary bones after their hard labors of the day.— This would confer a great favor on all parties.

Una.

Supreme Court.

WEDNESDAY, SIXTH DAY.

The case of Samuel Smith vs. the Old Colony and Newport Railway Company, which was on trial yesterday before this Court, and which, it was expected, would occupy yesterday and a part of to-day, was brought to a sudden halt in the afternoon, by the defendant's objecting to the depo-sition of the late Nathan H. Hammett, on account of informality in the citation served at the time of the taking of the affidavit. Mr. Hammett was the contractor of the factory building that was burnt, and his testimony as to the amount of damages sus-tained in its loss, was invaluable, and diffi-cult to replace by other testimony; when therefore the Court sustained the defendant's objections, the plaintiff was forced to ask for a continuance in order to enable him to supply, if possible, the testimony of de-ceased witness, from some other source.— The case after being thus partially heard was, upon motion of plaintiff, continued, and there being no other case ready, the Court adjourned to nine o'clock this morn-ing.

THURSDAY, SEVENTH DAY.

The Court met this morning at nine o'-clock, and the case of George B. Hazard vs. John H. Clegg, for judgment for pos-session of real estate under a Sheriff's deed, was argued to the Court, by Messrs. Shef-field and Van Zandt for plaintiff, and Mr. Blake for defendant, and the case was con-tinued for the present with the understand-ing that a subsequent day of the term will be fixed upon for a fuller and final hearing of all matters now in abeyance, prior to a final judgment.

In the case Elizabeth Sherman vs. Stock-ford E. Tilley and others, Thomas Cogges-hall, declined to act as guardian of the de-fendant's minor children, under a former appointment of the Court, and Wm. Gilpin was appointed guardian in his stead.

The case of Albert Seabury vs Luther W. Wilcox, of Tiverton, being a civil suit for damages for an alleged assault and battery, after being partially tried, was struck with the epidemic of the Term and caved in, and was continued, and the Court adjourned to meet again on Friday, the 14th of May *proximo*.

Providence.

The *Herald* says we see on all sides of us the march of improvement in this city. New buildings are going up and old ones coming down while many others are under-going renovating process by being repaint-ed, and "fixed up" generally.

We are to have a new hotel, it seems, a temperance one, too, on Canal street. It is to be kept by Hopkins & Sears, will be called the "Central House," and is to be opened the first of May.

Last Rail of the Union Pacific Rail-road Laid.—A private telegram received yesterday, dated at Omaha, Nebraska, 27th, says:

"The last rail of the Pacific Road was laid yesterday. The line is now complete from here to the Pacific."

The *Journal* is out in a strong and stirr-ing leader against the re-election of Mayor Doyle. The City Convention for the nom-ination has been called and there is likely to be a severe contest. Doyle is Sprague's candidate.

For Sale.—Two coffins made for Abbott and Sprague. Apply to the undertaker, at the Congressional burying-ground.—*Boston Post.*

Martha's Vineyard.—It has been decided to commence the camp meeting at Wesley-an Grove on the 16th of August next.

"Let us have Peace".—Senator Anthony and Sprague have come home.

A little six year old boy was asked by his teacher to write a composition on the subject of water, and the following is the production: "Water is good to drink, to bathe in, to skate on when frozen. When I was a little baby the nurse used to bathe me every morning in the water. I have been told the Injuns don't wash themselves but once in ten years. Oh! I wish I was an Injun."

A man named Mason residing at North-field, Mass., committed suicide at the American House, in Keene, at 10 o'clock Monday morning, by taking strychnine. The deceased was an educated man, had ser-ved in the army, and came to that city in search of employment. He leaves a wife and daughter at Northfield. The sad act was committed, from appearances, while the deceased was under the influence of liquor.

A sporting man in Paris opened an office for advertising inexperienced young men in regard to so-called affairs of honor. He teaches them for fifty francs how to insult their adversaries in the most genteel man-ner, and how to resent affronts so as to ren-der a duel inevitable. He instructs them al-so in all matters regarding duels and chal-lenges. He is well patronized.

Business Notices.

The fame of the celebrated Plantation Bitters has no parallel in the history of Medicine. The thousands upon thousands of bottles that are made and sold daily is but proof positive of their wonderful virtues. Thousands of Certificates can be produced showing the efficacy and certainty of the cures which they effect, and the Medical Fraternity, usually so jealous of anything which causes persons to think and doctor for themselves, are compelled to acknow-ledge their wonderful virtues, and prescribe them under other names. They are sold by all druggists.

An Absolute Safeguard.

Invalids, broken down in health and spirits by Chronic Dyspepsia, or suffering from the terrible exhaustion which follows the attacks of acute dis-ease, the testimony of thousands who have been raised as by a miracle from a similar state of pros-tration by HOSTETTER'S STOMACH BITTERS, is a sure guarantee that by the same means *you too* may be strengthened and restored. But to those who stand in peril of epidemics, to all who, by rea-son of exposure, privations, and uncongenial cli-mate or unhealthy pursuits, may at any moment be stricken down, this paragraph is most *particularly* and *emphatically* addressed. You who are thus sit-uated, are proffered an absolute safeguard against the danger that menaces you. Tone and regulate the system with this harmless medicinal stimulant and Alterative, and you will be forearmed against the maladies whose seeds float around you in the air unseen. HOSTETTER'S STOMACH BITTERS are not only a standard Tonic and Alterative throughout the United States, but they are accredited by the certificates of the most distinguished citizens of the Union, to the people of all other lands. In Canada, Australia and the West Indies, they are gradually taking the place of all other stomachics, whether na-tive or foreign, and as surely as truth is progressiv and demonstration overthrows doubt, they will eventually supersede every other Invigorant and Re-storative now employed in medicinal practice.

A TREATISE ON CATARRH,

By JAMES P. CAMPBELL, M. D.,

OF 335 FOURTH AVENUE, New York City,

Who will be at the PERRY HOUSE, Newport,

on MONDAY, April 19th, and will remain until SATURDAY, May 15th, 1869.

Its Prevalence,—Deleterious Effects on the General Health,—Where Located,—Diseases which it Induces,—Erroneous Methods of Treatment,—Fatal Result of its Neglect.

Perhaps there is no disease with which the human family is afflicted, so deleterious in its effects, so loathsome to the sufferer and so fatal in its conse quences, and yet so neglected, as Catarrh! The danger of disregarding the first and earlier symptoms of this disease is realized by few, and still less are they aware of the many diseases entailed upon them, and of which Catarrh, and Catarrh alone, is the ex-citing cause. Foremost among them stands Con-sumption, the destroyer of millions, while prevalent to a most alarming extent is Bronchitis, Laryngitis, Aphonia, Asthma, and other dangerous affections of the Throat and Chest. And so little is known of this disease, and such slight attention is paid to it by medical practitioners, (either in its treatment or the investigation of its causes,) that these results need not be a matter of surprise. I have no hesitation in saying, and I am prepared to demonstrate, that tens of thousands of those who now are sleeping in the cold embrace of death, might, had they had proper and appropriate treatment for Catarrh in the earlier stages of their sickness, have now been living, and in the enjoyment of perfect and sound health. Yet no one seems to realize this appalling truth, and every day only adds fresh victims to swell the ghastly list. No effort is made by the legion of sufferers, or by their medical advisers, to obtain a more extended knowledge of the causes which tend to induce this formidable malady, or the means by which its fear-ful ravages may be arrested and removed. A feeling of apathy seems to pervade all classes on this mo-mentous subject, and if a little "snuff," a little salt or sugar or camphor snuffed up the nostrils, fail to remove this deep-seated and loathsome disease, it is then looked upon as incurable. And this opinion gains strength from the fact that it is not only en-dorsed, frequently expressed by those in whom the sufferer has unbounded faith and confidence, and to whom he turns for relief, his family physician.— Hearing such an opinion from *his* lips, what wonder the patient loses hope and courage, and finally passes slowly but surely away, or, if suffered to linger a few years, is always firmly of the belief that "Catarrh can never be cured." As a consequence of this dis-inclination or inability of medical men to prescribe any effective treatment, a large number of "quack preparations," under the name and shape of "snuffs," have sprung up like mushrooms into existence, the inventors of which get rich by their sale to a credu-lous public, without affording them one particle of permanent relief. Most of these "specifics" have for their base nitrate of silver or corrosive sublimate, and their use in a large number of cases is highly detrimental and positively injurious. I have been consulted by thousands of persons who have used them, and never yet met with one who had in any way been benefited by their use, but found numbers to have lost their sense of smell, and some that of taste, by the use of their harsh medicines. But worst of all, physicians often advise the use of those same "snuffs." As I am a regular physician myself, and formerly a general practitioner, I trust nothing may be construed in what I have said as disrespectful to the profession. Knowing as well as I do how too often their services are not sufficiently appreciated, any such intention is farthest from my thought, but in a matter like this, when the health, happiness and lives of thousands are concerned and involved, it is impossible to avoid, but imperatively necessary to criticise, even if somewhat severely.

From the above, it will be seen that nothing, thus far, that would exert a beneficial or "curative" in-fluence in the treatment of Catarrh has been at-tempted, and as a consequence there are large num-bers who, at the present moment, firmly believe in the impossibility of "curing Catarrh." For such I would say that they must bear in mind that the pres-ent is emphatically an age of improvement, advance-ment and progress, especially in the medical and sur-gical profession, and that every day, by the skillful use of modern appliances, and the careful exhibition of newly discovered remedial agents, in the hands of discriminating and experienced practitioners, such results are daily produced, as in the days of our grand-parents, or even the younger days of our pa-rents, would have been considered not only imprac-ticable, but absolutely impossible to perform. Why, then, I ask, may not more have been learned of the causes that tend to develop Catarrh, and of the ne-cessary means by which it can be effectually and per-manently removed?

Investigation has demonstrated the causes of Ca-tarrh to be various. Typhoid and scarlet fever, mea-sles, and other febrile and eruptive diseases, tend to induce it in a large number of cases, but probably by far the most prolific source is a "neglected cold," by which the glands and membranes have been irri-tated and inflamed, and the consequence of which is the secretion of the discharge which is sometimes profusely eliminated from the nostrils or hawked up from the throat, and sometimes both. Sometimes the discharge from the throat is a thick, viscid and tenacious yellow mucous, often tinged with blood, and again in the form of an incrustation or scab, which the patient describes as coming from between the upper and back portion of the nostrils, (*the pos-terior nares,*) and the throat, and often requires the most persistent efforts for its dislodgement. This latter form is more frequent in the morning, and is caused by the warmth of the head resting on the pil-low during sleep, by which the watery portion of the discharge is evaporated and driven off.

The mucous membrane of the nose is the seat of Catarrh in its commencement, but in order to convey to the reader a correct idea of the manner in which this disease acts so deleteriously on the general sys-tem and health, and involves so many important or-gans, a slight description of this membrane is neces-sary.

"The gastro-pulmonary mucus membrane com-mences at the edge of the lips and nostrils, proceeds through the nose and mouth to the throat, from whence it is continued throughout the whole length of the alimentary canal, to the termination of the intestines, and also along the windpipe and its va-rious divisions, as far as the air-cells of the lungs, to which it affords a lining. From the nose the mem-brane extends through the tear passage, until under the name of conjunctiva, it is spread over the fore-part of the eyelids.

Other offsets from the nose line the frontal maxil-lary, ethmoidal, sphenoidal sinews, (small cavities situated in the bones bearing the same name.) A prolongation extends through the Eustachian tubes to line that passage and the tympanum, or middle ear."

A large majority of those who suffer from Catarrh in its earliest stages, are not aware of the fact, and labor under the impression that they are but expe-riencing the effects of a cold. To those the follow-ing description will prove of service:

When Catarrh first makes its appearance it creates a feeling of dryness and heat in the nose, with some-times frequent inclination to sneeze and obstructed respiration, and a stopping up of the nasal passages, sometimes on one side, sometimes on the other, and not unfrequently both. Shortly after, a thin, watery and acrid discharge appears. A little longer and the discharge becomes thick and yellow, and sometimes streaked with blood. This is a marked stage in the disease, not only causing great annoyance to the sufferer, but highly dangerous in its effects. (Many at this stage now commence discharging immense "lumps" from the nose, sometimes the length of the forefinger.) If the disease does not now receive a prompt remedial treatment, the discharge becomes purulent, thick and of a yellow green color, accom-panied in the majority of cases with an odor most disgustingly offensive. The very breath of the patient becomes so tainted that his society is unendurable, and he is an object of loathing and disgust to him-self and associates. There is a continuous dropping of mucus into the throat, causing constant hawking and expectoration, the sense of smell and taste are gradually lost, strange and distressing noises in the [illegible] making their appearance, almost driving the sufferer distracted, the hearing gradually fails, until in many cases total deafness is induced; a severe pain or feeling of pressure is constantly felt over the eyes, as soon as the frontal sinuses are affected, and pains often mistaken for "Neuralgia," are felt through the head and face. Sleep at times is an im-possibility, from the constant accumulation of the "dropping in the throat," the patient being thereby almost strangled, and in the morning, in some cases, the amount of mucus expectorated is immense, that has accumulated during sleep. A coated tongue and unpleasant taste in the mouth on rising is also fre-quent. During the day, a drowsy, listless feeling pervades—a disinclination to exertion of effort.— Whatever is done is done mechanically, there is no energy, no ambition, no joyous spirits. A depressed gloomy feeling prevails, sometimes absolute morose-ness.

A gentleman once consulted me, and expressed himself that he absolutely dreaded to see customers enter his store, and that the less business he did the better it suited him. As the disease advances, the memory becomes defective and impaired, so that alike the most important and most trivial matters fail to be remembered, while close application to study or business is impossible. This state of things sometimes ends in ramollescence, or softening of the brain. If the inflammation extends through the "lachrymal duct," or tear passage to the eye, it pro-duces what is generally known as "Weeping Eye," causing the tears to flow on the slightest irritation or exposure, while if it extended downward to the throat gives rise to Bronchitis or Consumption. It is now an established fact that fully two-thirds of the cases of Consumption commence by inflammation and ulceration of the air passages. The best and only cure for Consumption is its prevention.

It is at this stage of the disease that Procrasti-nation becomes in so many cases fatal. Thousands of cases become so only from having been neglected too long. No disease is so insiduous in its ap-proaches as Catarrh; none so silently but surely un-dermine the constitution of the strongest, and it is only when the sufferer realizes its deleterious effects by his or her failing health and gradual decline, that they see something must be done. They then be-come alarmed in good earnest, and like a drowning man catch at straws, and first they try this "won-derful cure all," and then try that. But the golden opportunity in many cases, has gone by, the silent warnings have been neglected, and the dread pen-alty must be paid; and daily do we miss some bright ornament from the family circle, who might, by a judicious and timely course of treatment, have been spared to have been a blessing and comfort many years to their now heart-broken and despairing rela-tives and friends.

Parents often think that children will out-grow this disease. Never did parents labor under a more mistaken idea. *Catarrh grows with the child*, and like a rank noxious weed, will surely kill the deli-cate plant. *Apparently*, perhaps, after its acut stages, it seems not to increase, but *insidious* as its off-spring, Consumption, it is nevertheless growin worse.

In reference to the various modes of treatment us ually in vogue in this disease, I can only say that my opinion none of them can or do produce th slightest beneficial effect. Many of them are abso lutely dangerous. From a very extended experience I am satisfied that the use of "Snuffs" decided aggravates the disease by increasing the inflam mation of the schneiderian membrane of the nose.— All that can possibly be said in their favor is that they may afford a slight temporary relief by momentarily removing the obstructions in the nos-trils, but they do nothing toward preventing its re-currence. Even this slight relief is obtained at the expense of the loss of the sense of smell. The use of camphor, and salt and sugar is even more dangerous, and I have known of many cases where the senses of both taste and smell were entirely de-stroyed by the use of this most barbarous remedy, and the cases of Nasal Polypus that have been in-duced by this severe application are numerous.— Cold or tepid salt water is perhaps the only safe remedy (if remedy it can be called) for the use of those not able to obtain proper medical advice. Not that in this disease it produces the slightest curative effect, for actually it neither does good or harm, ex-cept by its cleansing properties in affording a slight sense of comfort, but even that is of a few moments' duration. Perhaps a little blood warm water snuffed up the nostrils when obstructed so as to impede free respiration, might afford a little relief. It would cer-tainly do no harm, though it could not actually bene-fit the case at all. In regard to all other "remedies," I would earnestly advise their being let "severely alone" they can do you no good and may do you much harm. Many suppose Catarrh to be as they describe it, "Humor in the Blood," and think by the use of vegetable syrups, acting on the blood, it can be driven off. There is no great harm in the idea, only from the loss of the precious moments it in-volves. Medicines of that class are all very well as far as they go, but they will never cure Catarrh. I had a little boy, eleven years old, brought me in Sa-lem, Mass., suffering severely from Catarrh. Some [illegible] physician had "guaranteed" to cure him, pro-vided he took "twelve quart bottles" of her "Infal-lible Blood Purifier." At the time he was placed in my charge the little victim had been made to swallow seven of the twelve quarts, but as there was not the first sign of improvement, and as he seemed much weaker than before (and who can wonder that he was after such a dosing) he commenced this treat-ment, his parents had lost confidence, and according-ly brought him to me. Under my treatment, he gained three pounds in weight the first two weeks.

There are many cases of advanced Catarrh in which a cure can never be brought about, but even in such cases the disease can, by proper treatment, be arrested and prevented growing worse, and its disagreeable symptoms and effects removed; while there are, on the other hand, very many apparently desperate cases that can be entirely and permanent-ly cured. And as I have before said, there are oth-ers, who from neglect, are beyond the reach of medi-cal or human aid, and in my experience I have had more than one painful and distressing scene in con-sequence of my utter inability to be of the slightest use or service to the sufferer. One was that of a lady in Augusta, Me., the mother of a family of young children, who, from the ravages of Catarrh, had lost the entire roof of the mouth, so that her speech had become affected to such an extent that it was impos-sible to understand anything she said. She was un-able to make any other than a "guttural" sound, and was [illegible] affected by the knowledge that the [illegible] with her children. I was com-pelled to tell her that I could do nothing for her, ex-cept [illegible] that perhaps by wearing a silver plate as an artificial roof to the mouth she might possibly be able to speak so as to be understood. I was also consulted by a young man in Saco, in as bad or even worse condition. He had lost the roof of his mouth also, and in drinking he was compelled to press the nostrils with the thumb and finger, otherwise the fluid [illegible] would run through them [illegible]. [illegible] if I had only attend-ed to the matter earlier in my life, how many years of suffering and mental torture I might have saved him.

Polypus in the nostril is frequently induced from the neglecting of Catarrh. My former partner in [illegible] of New York, was consulted by a young lady of [illegible] years of age, who had been af-flicted [illegible] years with Catarrh, though neither she nor her parents were aware that it was that dis-ease. The disease had gradually grown worse, her [illegible] affected from the mucous continu-[illegible]. She had been under the care of several physicians, some of whom treated her for [illegible], others treated her for consumption. Gradually the disease increased until the nostrils be-came [illegible]. Respiration gradually became more and more difficult by her mouth, until it got so that she could scarcely breathe, the polypus which had [illegible] the nostrils having passed on the soft palate and into the pharynx, causing obstruc-tion [illegible]. In this case an operation would have been necessary to remove the polypus. The operation itself could have been performed successfully, she had been so reduced by the disease that she could not have lived through the operation. Finding that to be the case, he ad-vised the father and mother not to have it performed, [illegible] after wards, having strangled.

A [illegible] case was one that I met with in Lewiston, Me., that of a gentleman about forty, whom I treated successfully, removing the polypus by [illegible]. I have no faith in the removal of [illegible] instruments, as they invariably grow again. The case above alluded to was a very bad one but the patient possessed an excellent consti-tution, [illegible] of the case in a great measure. Under my course of treatment the polypus was not only permanently removed, but his catarrh entirely cured. I could quote [illegible] of similar successful cases did space permit.

In conclusion I would say to those suffering from Catarrh, that for the past ten years I have devoted my [illegible] attention to the treatment of that disease and deafness, and I claim to have per-fected a system of treatment by which Chronic Ca-tarrh can be permanently cured, and in proof of the same I respectfully call attention to the evidence and testimonials published in the columns of this paper, from the vicinity of Newport, and for the veracity of which I invite the most rigid investigation. The system of treatment as prescribed by me is such as can be safely carried out at home, without derange-ment of or detention from business or household matters. To those desirous of availing themselves of the benefit of my experience and advice, I make no charge for consultation or examination. All may rest assured they will be treated with candor and frankness, and that no case will be undertaken that does not hold forth a fair prospect of benefit or cure.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of Pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abscess, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all billous complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. G. C. GOODWIN & CO., 38 Hanover St., Boston, Wholesale agents. For sale by all druggists. jan4—1y eo

STICKNEY'S CIRCUS,

FROM NEW YORK,

IS COMING.

—:o:—

Lot corner Spring & Perry-Sts.

—:o:—

MONDAY, MAY 10.

—:o:—

A Railroad Circus.—No Jaded and Worn-Out Horses.

—:o:—

Opposition Invited—Competition Defied.

—:o:—

Organized for the year 1869 in keeping with the spirit of the times and age of progression.

Despising the now long ed humbuggery of the age, the manager does not announce a combination of six or four circuses in one, or impose upon the public any hybrid "Circus and Menagerie," which are invariably found to contain a weak apology of either; nor does he deem it expedient to resort to a *Dazzling Street Parade*—he simply proposes to exhibit a fully developed and intelligible circus performance, but an effort any presented by the nondescript traveling exhibitions now in vogue, who simply "keep the promise to the ear and break it to the hope." In which he is able to announce the following

Well Known Celebrities:

Mad. Louise Tournaire,

The brilliant and fascinating premiere lady rider *Dame de Manege* and delineator of the high school of art.

Madame Ida,

The Classic Grace and Rare Accomplishments of this lady have gained for her the appellation of the Hippona of the Circle.

La Petite Marie,

The Child Rider, only eight years old, whose wonderful and difficult acts on the back of her Fiery Steed are astonishing to all who witness it.

S. P. Stickney,

The Veteran Pioneer of circus amusements, the skillful Director, this gentleman imparts a brilliancy to the general performance.

Sam. Stickney,

The Favorite Clown and Shakespearian Jester.

Sam. Melville,

The Australian Clown. First appearance in this country,

Watson Brothers, three in number,

Theodore Tourniaire,

William Naylor,

Delevanti Brothers,

Mons. St. Clair,

Sig. Terdelli,

William Penny,

L. Kline,

Theodore Robertson.

The Celebrated Trick Horse,

JAMES ROBERSON,

Will be introduced by Madame Louise Tourniaire.

Mr. Stickney having banished the antique style and reached perfection in this immense organization, he will offer no stale and exhausted acts, but new features and fresh attractions never before introduced to the public, will surprise and delight the eye. The magnificent scene in the arena will be enriched and beautified by gorgeous paraphernalia and superb music.

The parade on the streets will consist of only a Band Wagon containing Prof. Sexton's Opera Band from Cirque de Napoleon, Paris, composed of musicians of the highest order of excellence.

TELEGRAMS.

THE FOREIGN MINISTERS AT WASHINGTON.

WASHINGTON, April 28.

The warm weather has driven many persons out of Washington, although at times the government departments continue to be crowded with office seekers.

The French Minister left for Europe last night.

Mr. Thornton, British Minister, will take a house for the summer either at Lenox, Mass., or at Newport.

Blacque Bey, the Turkish Minister, expects to take a summer residence in New England.

SHOCKING MURDER.

MAMARONECK, Westchester Co., N. Y., April 28.

Last night Gilbert Robinson, a jeweler of Rye Neck, opposite Mamaroneck, was found dead in his bed, in his store, his skull crushed in by a blow from a gun barrel, in the hands of some person unknown. The deceased was last seen on Monday night, at work in his store. As it was presumed he had gone to New York for goods, the fact that the store remained closed on Monday did not excite remark. Mr. Robinson had about $700 on his person. He was aged about 20 years, and was the son of Thomas Robinson, a well known citizen residing on Weaver street, in Mamaroneck. The murder creates intense excitement. Coroner Smith will hold an inquest over the remains this afternoon.

—o—

A FATAL MISTAKE.

CAMBRIDGE, Ind., April 18.

Judge Nineth Johnson, of Centreville, Ind., swallowed a quantity of aconite, through mistake, this morning, and died within twenty minutes.

In view of the inconvenience and almost impossibility of removing ladies who faint in Beecher's Church, the Brooklyn *Union* suggests a moveable tackle by means of which they can be easily swung from any part of the church to the door.

The special agents of the Post Office Department, eight in number, in charge of the ocean mails, have been discharged, and the masters of the steamers carrying the mails will hereafter do the business. Another evidence of a desire to cut down expenses and the office-holding agency.

It is now charged that the collision between the Narragansett and Providence in Hell Gate on Saturday, was not merely a matter of carelessness, but of direct intention on the part of the officers of the first named vessel. So strong is this belief that a report of the facts has been signed and forwarded to the United States Inspector.

WOOD'S BUILDING, No. 12 South Main, Cor. College Street, Providence.

INSURES FIRST-CLASS DWELLINGS AND CONTENTS ONLY.

—o—

AMOUNT AT RISK, $4,500,000.

—o—

The object of a Mutual Company is to furnish insurance to its policy holders at the ACTUAL COST, and the main thing to be considered is, what conditions are most favorable to make the actual cost AS NEAR NOMINAL as possible. This Company will insure nothing but Dwellings and Household Furniture, which experience has shown to be the SAFEST OF ALL INSURANCE RISKS, thus putting the liability of losses at the LOWEST POSSIBLE STANDARD. The premium charged is sufficient to cover all probable losses and expenses during the term for which the policies are issued, thus avoiding the necessity of assessments, which are always *distasteful and expensive*. The Insured receive all the profits,—every dollar, after deducting the necessary expenses, being invested for their benefit, and returned to them at the expiration of their policies, thus offering one of the safest and cheapest systems of Insurance.

Newport, April 27th, 1869.

FOR HEADACHE AND LOSS OF APPETITE,

USE PEKE'S DYSPEPSIA BITTERS, prepared
ap19-eo by CASWELL, HAZARD & CO.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED,
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass., is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

Is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

TO THE LADIES.—The celebrated **DR. L. DIX** particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, **No. 21** Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the United States Patent Office, Washington, under the Act of 1837.

No. 78 State St., opp. Kilby St., Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered on all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on *twice rejected* applications, SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

HORACE WATERS.

TESTIMONIALS.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet Music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for years), of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and *first-class instrument.* Stronger endorsement we could not give.—*Home Journal.*

REMOVAL

THE ORIGINAL WILLIAMS has removed his PHOTOGRAPH GALLERY to the Rooms formerly occupied by J. W. Black, in

No. 2 Downing's Block.

Thankful for former favors from his friends and citizens he would ask a continuance of their patronage, assuring them all that his work shall be equal to the best and at prices that are reasonable.

THE AQUIDNECK HOUSE,

FOR THE SEASON OF 1869,

WILL OPEN ON

MONDAY, April 12th,

For the reception of Permanent and Transient Guests.

THE PROPRIETOR flatters himself, the House was never in better order than the present season, many improvements having been made and new furniture added.

About May 15th, the BILLIARD TABLES and BAR will be removed from the House to Aquidneck Hall adjoining, thus doing away with the objectionable feature of a Bar and Billiard Room in a Hotel.

A New DINING ROOM will be opened at the same time, enabling me with my present facilities, to dine one hundred and sixty people at once.

DYSPEPSIA & LIVER COMPLAINT.

Important Certificate.

Having been afflicted with chronic disease of the digestive organs, (described by physicians as enlargement of the liver and inflammation of the stomach,) for more than ten years, and suffered what words can never describe, without relief from the most celebrated medical skill that could be consulted, I was induced by the physician who last attended me to try Dodd's Nervine and Invigorator. He had witnessed its effects, he said, in his own practice, and could recommend it in the highest terms. I had about lost faith in everything; but I followed his advice, procured the medicine.—The effect inspired me with hope. I continued its use, and still improved; following it up, I grew stronger and stronger, and suffered less and less from my troubles. This for some months—until I was relieved and needed it no longer. Dodd's Nervine restored me to complete and sound health; and no language is able to express the gratitude I feel at being well once more. I am thoroughly cured of the horrible suffering that had made ten years of my life most wretched. No one can conceive my joy who has not experienced a like recovery. E. B. LIBBY, St. Paul, Minn.
